EDUCATION

Manipal University Jaipur   Rajasthan, India
Bachelor of Technology | Computer Science & Engineering   Aug 2021 - Aug 2025
CGPA: 8.15

EXPERIENCE

ventory.co.in | Co-Founder & Senior Developer   Hyderabad, Telangana, India | JUL 2023 - Current
- Co-founded ventory.co.in, a bootstrap company, and hold the position of senior developer.
- Currently working on the development of a QR code-based scanning menu system, which enables shopkeepers to customize menus, supports online ordering, and includes smart bill management with analytics.

Startup Weekend Jaipur | Co-Lead Web Developer   Jaipur, Rajasthan, India | APR 2023 - Current
- Co-lead web developer at Startup Weekend Jaipur, where I actively contribute as a backend developer.
- My responsibilities include developing registration forms with integration of the Google Gmail API. Upon registration, a QR code is automatically generated and sent to participants' email addresses, enhancing event security through authentication verification.

Randomize(); | Projects Head   Manipal University Jaipur | May 2022 - May 2023
- Led as Projects Head in the official computer science club of college overseeing the development of 4 open source projects for Hacktoberfest.
- Provided mentorship and guidance to fellow students, supporting them in their project development as part of the core committee of Randomize();
